GENERAL STRIKE IN PHILADELPHIA VOTED

Union Delegates at Meeting Decide on Sympathetic Walkout at Mid-night Friday.

Philadelphia, Mar. 3.—A universal strike of union workers and their sympathizers, to begin at midnight Friday, was proclaimed by the Central Labor Union of Philadelphia and vicinity at a meeting last night. The strike leaders declare that 100,000 men will stop work at that hour if the Rapid Transit Company shall not in the meantime have consented to arbitrate its differences with the striking car men. Assurances have been received, they say, from hundreds of unorganized wage-earners that they will join the movement.

Director of Public Safety Clay announced that he had been collecting statistics as to the number of men who would go on strike Saturday. According to the reports received by the police in a canvass made by the director's order, workmen generally will ignore the strike order.

Mayor Reuben said he would maintain the position of refusing to be a party to any arbitration proceedings.

When he was visited by a committee from the United Business Men's association, composed of leading business men from every section of the city, he said that potent political leaders had already urged him to change his attitude and urge arbitration, but that he was going to maintain his stand that his only duty was to maintain peace and order.

Rioting started again last night in the northern section, where everything was peaceful during the presence of the state police.

At Allegheny and Frankfort avenues a number of cars were demolished by stones, and at Richmond and Orthodox streets, a number of small boys set fire to a frame washing-room owned by the transit company.

MAJ. GEN. WOOD IS WELL AGAIN.

Will Leave Johns Hopkins Hospital on Saturday.

Baltimore, Md., Mar. 3.—None the worse for two serious operations at the Johns Hopkins hospital, Maj. Gen. Leonard Wood is again able to get around, and hopes to leave the hospital on Saturday. He will return to Governor's Island.

Mrs. Wood said that the general was entirely well and in fact took on six pounds of weight during his stay in the hospital. The operations were successful.

Joy in Good Heading.

Two ladies in my office the other day were talking and comparing notes.

One said, "I shook like a leaf when I sat down in the dental chair, but after Dr. Richards had extracted one tooth and I found that it really did not hurt, I said go ahead and take the others out. I could have sat there till tomorrow."

"That's so," said the second lady, "I felt the same way, but to my surprise the pain was simply nothing."

"These expressions are full of suggestion, in view of the fact that these same people tell me that their former dental experiences are simply a nightmare when they think of them."

I feel that I am well within the truth when I tell you that my present method simply annihilates the pain of extracting teeth.

COMPLEXION OF THE NEXT COUNTY BOARD

It is Probable That Four-fifths of the Old Supervisors Will Be Returned.

If F. F. Livermore's average, based on years of observation, holds good, about four-fifths of the supervisors will be returned to the county board at the forthcoming spring election. A meeting for organization and the election of a new chairman to succeed L. E. Gottle will probably be called late in April. It is a custom of long standing to place the gavel in the hands of representatives of the cities and towns for alternating periods of two years and this spring the towns will have their turn. This choice John A. Paul of the town of Milton, who has been head of Committee No. 12, W. E. Shoenberger of the town of Janesville, who has been chairman of the finance committee, and several others within the list of possibilities. The spring meeting generally lasts two days in order to permit the newly elected chairman to appoint his committee. Rock county supervisors are in session about ten days out of the entire year and receive \$3 per diem and mileage.

BLOCK OF MINING STOCK INVOLVED

In Case of Mansfield vs. Bicknell Tried in Circuit Court Today—Receiver Named for Sale.

Testimony and arguments pertaining to the case of F. C. Mansfield vs. H. S. Bicknell, an appeal by the defendant from the municipal court judgment of \$200 for the plaintiff, were heard by Judge Grimm in circuit court today and the case taken under advisement. The plaintiff seeks to recover for mining stock which the defendant refused to pay for on the ground that it was worthless. Fisher & Oestreicher represented the plaintiff and Claude J. Hendricks, the defendant.

Receiver for Sale.
William J. Hoskins was appointed as receiver in the action brought by James Doyle to dissolve his partnership with Michael Connelly in the opera house saloon on East Milwaukee street, and given directions to dispose of the stock within thirty days.

Divorce Decrees.
Charles M. Baldwin was granted a decree of divorce from Lizzie E. Baldwin on the grounds of desertion. The parties reside in Clinton. Mary Armstrong of Beloit secured legal separation from James M. Armstrong on grounds of cruelty.

FRED BURPEE IN RACE FOR CITY ATTORNEYSHIP

Papers Circulated in the Fourth Ward Were Filed Today—Other Sculls on Political Horizon.

That Fred P. Burpee is to seek the democratic nomination for city attorney became a known fact today when nomination papers circulated for him in the Fourth ward were filed with the city clerk. Stanley Tallman is out for the republican nomination for justice of the peace and Edward Rathbun seeks to succeed himself as supervisor from the Fifth ward. It is rumored that Joseph Donahue will be a candidate for the democratic nomination for alderman in the same ward.

FREE LECTURE ON THE SOCIAL EVIL

Will Be Delivered by Dr. T. L. Harrington of Milwaukee at K. of C. Hall Monday Night.

All men and youths over sixteen years of age are invited to hear a free lecture on "The Social Evil" which will be delivered by Dr. T. L. Harrington under the auspices of the Knights of Columbus chapter at the hall in the Jackson block Monday evening at eight o'clock. Dr. Harrington is one of the leading physicians of the state metropolis. He has delivered this lecture under the auspices of the K. of C. councils in almost every other city of Wisconsin and all reports agree that he presents the subject in a manner that is highly interesting as well as instructive.

INTERESTING LECTURE.

Judge Ben B. Lindsey at Congregational Church.

An exceedingly interesting lecture, "The Misfortune of Mickey," will be given at the Congregational Church April 12, by the boys' champion, Judge Ben B. Lindsey.

Tickets may be had at Baker's Drug Store, McCue & Huss and the Flower Shop, 50c each.

SPRING DISPLAYS.

With the coming of spring the Archie Roll store takes on a new and fresh appearance. The walls have been redecorated and the stocks have been rearranged, and the spring fabrics and garments taking the place of the winter ones. The store is one of the busiest places in the city and presents a beautiful display of the bright, cheerful spring goods.

JEWELRY HOUSE OF O. H. PYPER, NOW PYPER & KNOX.

S. R. Knox who has for years been partner and watchmaker with O. H. Pyper is now a partner in the firm. The jewelry business on 119 W. Milwaukee St. will hereafter be known as Pyper & Knox.

Chicken Thieves: Thos. Eddon, 1102 Oakland avenue, has reported the loss of four chickens during the past few days and thinks chicken thieves are at work in the third ward. Other residents of the same ward have also missed fowls.

William Tobin Fined: In municipal court this morning William Tobin pleaded guilty to a charge of drunkenness and paid a fine and costs amounting to five dollars.

HAS UNCLE SAM BEEN THE VICTIM OF A BIG HOLD-UP?

INVESTIGATION IN WASHINGTON BRINGS OUT STRANGE FACTS.

WHAT CAN BE ACCOMPLISHED

Secretary of War Tells Committee Facts Relative to Rates Charged by Steamship Company.

Washington, D. C., March 3.—The investigation into the contract now existing between the United States government and the Pacific Mail Steamship company is disclosing some very startling facts.

The government now owns, in addition to the Panama railroad, the Panama Steamship company, which operates a line of boats from Colon to Atlantic coast ports in the United States. It was for hauling freight and passengers from Panama across the isthmus on the railroad and up to New York and other ports by boat that the United States received 50 per cent of the transportation charges around

several situation into consenting to the demand of the Pacific Mail for 50 per cent of the point rate.

Several senators pressed the secretary of war for his opinion of the surest way to break up the Pacific Mail monopoly. He said that the surest way would be for the government to build ships and operate them, but he would not say that such a course would be the wisest way. He said that the question was a legislative one and he did not care to endorse government ownership.

"We sent for you to tell us what to do," said Chairman Flint. "That, I think, is what you would do if you were a senator."

"Probably we have been trained in different political schools," said the secretary, "but I have never believed it was the duty of the government to furnish means of transportation. I have not believed it wise for the government to engage in that business, which can be best done by individual

NEW PHASES IN THE SITUATION

(Continued from page 1.)

supporters of Senator William H. Hutton in the senatorial campaign of 1908 and so would not likely be prejudiced in their judgment and take a view friendly to the candidacy of Mr. McDevore unless they considered that the Morris withdrawal really meant harmony in that direction.

This attitude of the progressive republican press in accepting the Morris withdrawal from the gubernatorial campaign as a move in the aid of the candidacy of Mr. McDevore will, by the way, help McDevore considerably, and even if some of the La Follette leaders are inclined to cut Mr. McDevore in several although professing friendship to him in public they would have a hard time in covering their tracks in such a move as the rank and file of the voters who might be appealed to upon such a proposition would be very likely to ask after the attitude taken by the halfhearted papers, why papers friendly to Senator La Follette were accepting the union of the McDevore and Morris forces into a single campaign with McDevore running for governor and Morris for lieutenant governor if in reality such a union had not occurred.

Some Are Sure to Mutiny

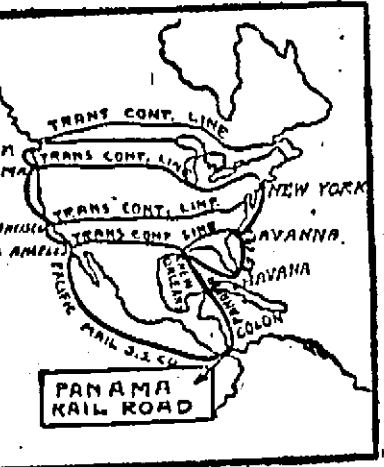

Still it can be said there will be some La Follette leaders, most of whom were in the Hutton following two years ago, who even if the McDevore candidacy for governor is given the seal of La Follette himself personally from the stump will not accept the Milwaukee man's candidacy but will work and fight openly for some other candidate, possibly John Strangely if no one more to the liking of these leaders comes into the field.

It can be said also that those Hutton men are making no bones of their opposition to the candidacy of Mr. McDevore, are openly proclaiming that he will never be the republican nominee for governor if their opposition can prevent his nomination. It can be said also that the men included in the list of opponents of Mr. McDevore are men having a great deal of strength in some of the counties of the state and men whose opposition will mean quite a little as far as the halfhearted rallies are concerned. What is more these men can say they will never accept the gubernatorial leadership of Mr. McDevore even under pressure from Senator La Follette. Just what the senator intends doing about the gubernatorial situation it is hard yet to say, and so far there have been no public indications of any kind from Washington as to how the senator views the withdrawal of Mr. Morris as a gubernatorial candidate.

The fact, however, that the chance of ambitions of Senator Morris from the republican nomination for governor to a candidacy for the nomination for lieutenant governor was largely engineered by State Senator Sanborn, who is known to be in close political relations with the Madison senator, and who, it is generally understood, will manage his coming campaign in this state for the nomination in the primary election for another term as United States senator, has led most of the La Follette rank and file to believe that the withdrawal of Senator Morris from the gubernatorial field was practically under the dictation of Senator La Follette. In fact, there are many who believe the move was made under the direct orders of Senator La Follette for the reason that Senator Morris had this and again said he would not retire as a republican gubernatorial candidate unless absolutely ordered to do so by either the senator or a conference of the halfhearted leaders of the state. Such a conference never was held, so it must have been the other alternative.

Before concluding Mr. Dickinson proposed that the anti-trust law be invoked to break up the monopoly which the Pacific Mail company and the transcontinental line have on business between Pacific coast ports and the isthmus of Panama. When it was suggested that suit under the Sherman law might fail because of lack of proof that the steamship company operated as an independent line, would be considered a competitor of the Southern Pacific railroad members of the committee discussed the advisability of recommending legislation that would reach the merger.

No decision was reached on this subject and Secretary Dickinson left the stand after saying that he would investigate the whole subject of mail contracts, chartering steamships or any other means of meeting the situation.

IS UNITED STATES BEING HELD UP? PRINCIPAL IN THE INVESTIGATION INTO THE PANAMA RAILROAD.

Upper Left—Senator Flint of California, who introduced the bill which brought about the investigation.

Lower Left—Senator Bristow, who is an authority on transportation via Panama railroad, and Secretary of War Dickinson, who admits that the government was forced to pay an exorbitant rate.

Upper Right—Map showing the transcontinental line and the competing steamship line. The government owns the Panama railway and controls the Panama Steamship company operating boats from Colon to Atlantic ports. Senator Flint's bill proposes to operate a government-owned steamship line in competition with the Pacific Mail.

from Pacific coast ports to Atlantic coast ports and for which it now receives 50 per cent.

Senator Bristow called the attention of the senate committee to the advance and asserted that it was up to Secretary Dickinson to explain matters. Mr. Bristow called B. N. Baker, a Baltimore shipbuilder, before the committee to tell how he offered to put in an independent line of vessels on the Pacific coast to take the place of the Pacific Mail line, and handle Panama traffic at less than the old rate, and was "turned down" by Secretary Dickinson. His charges very naturally caused the secretary of war to prepare a defense.

He came before the committee this week prepared to clear himself from the charges of unfairness. He began by declaring that President Taft was consulted by him and that both of them agreed that the government would have to be "held up" by the Pacific Mail line.

He said that shortly after he became secretary of war the management of the Pacific Mail line had made a demand of a 20 per cent increase in their portion of the joint rate.

"The Pacific Mail line had threatened to withdraw its ships, and if this had been done," he said, "it would have left the government with no outlet on the Pacific coast."

"If the ships on the Pacific side had been withdrawn I feel that my position would have been indefensible, and therefore I was forced to accept the terms offered by the Pacific Mail," said the secretary.

"I consulted with the president who knew more about the canal affairs than I did, and we were not willing to take the risk of calling the Pacific Mail Steamship company's bluff."

"Did you ever make an investigation to determine whether the Pacific Mail line is controlled by the transcontinental line?" asked Chairman Flint.

Mr. Dickinson replied that he had seen President Scherwin of the Pacific Mail only once, and they had had an unpleasant interview. Scherwin insisted, he said, that his steamship line was independent of the Southern Pacific, and upon that point they could not agree.

The secretary took the position that an exclusive contract would reverse the whole policy of the government, and that any government official who would countenance it would be taking an enormous responsibility.

Asked to reply to the charge made by Baker that he had rejected the Baltimore shipbuilder's proposal to put in an independent steamship line, Secretary Dickinson produced the proposed contract to show his understanding of the offer. It indicated that the company was to have an exclusive contract and many other favors that Mr. Dickinson said could not be granted under the authority vested in him or any other member of the president's cabinet.

"The government," he said again, "had practically been covered by a

EVANSVILLE HELD DECLAMATORY MEET

Miss Irene Doughty Won First Prize in Eighth Annual Contest Held in Baptist Church.

[Special to the Gazette.]

Evansville, March 3.—The eighth annual declamatory contest of the seminary was held in the first Baptist church and attracted a fair-sized audience. First place was won by Miss Irene Doughty, subject "How Casse Saved the Spoon"; second, Esther Nordman, subject "Jena Valjean"; third, Ernest Friebel, subject "Mulligan and Casper"; fourth, Miss Florence Scaries. Good music was furnished by Miss Boyce's pupils. The Misses Lou Howland, Nora Smith, Olive Lindington and Louise Porter rendered piano solos and the Girls' Glee club of the seminary sang.

The committee in charge of the Clitzens lecture course have made arrangements for an extra number to be given on Wednesday evening, March 9, when John B. Ratto of Chicago will give one of his humorous lectures. Mr. Ratto is an impersonator of a distinctive type and has the reputation of being excellent in character studies from life. He represents all kinds and classes of people and changes his appearance as easily as his dialect.

Reymond Partridge has bought William Klein's farm, two miles north of town and gave as part payment a house and lot which he owned on First street. Mr. Partridge has moved onto the farm and Mr. Klein has taken possession of his new home. Fred Rodd and family, who have been living in the house, have leased the E. M. Patterson place on Second street.

Alex. Richardson will give the address at the Y. M. C. A. meeting next Sunday afternoon at three o'clock.

Only old New Yorkers know that there used to be an island 200 feet off the Battery, and that it was fortified and known as Fort Clinton. The island was connected with the mainland by a draw-bridge. There exists no connected account of the material culture of the great group of Eskimo dwellings around the mouth of the Mackenzie river. The Duntley Pneumatic Cleaner

Sweeps and dusts in one quarter of the time of the old way, and does it TEN TIMES as effectively.

It saves the wear on carpets, rugs, upholstery and curtains; it takes the dust and dirt out of each room every time you use it. It is the only method by which a room can be kept perfectly clean—walls, ceiling, woodwork, furniture, mattresses, airiating pillows, floor and all.

Grand Prize at Seattle Exposition

was awarded The Duntley Pneumatic Cleaner. It won the Gold Medal at the Golden West Exposition in London, and has been approved by the Underwriter's National Electric Association.

It is declared by every impartial investigator to be the best machine of its kind yet built.

To prove our faith in the efficiency and durability of these machines we gladly sell them on small monthly payments (or on our rental investment plan) where this method of purchase is desired.

You should have a Duntley Cleaner in your house. Phone us quickly for an appointment for demonstration.

Window demonstrations at our store between 4 and 6 p. m. Friday and Saturday.

JANESVILLE ELECTRIC CO.

GIVES AWAY MUCH WEALTH

ROCKEFELLER SEEKS FEDERAL INCORPORATION ACT FOR HIS RICHES.

MANKIND TO BE BENEFITED

Oil King's Object is to Provide General Organization to Conduct Philanthropic Work Along All Lines—Has Given Away \$52,000,000.

Washington, Mar. 3.—With upwards of \$100,000,000 of his vast wealth already scattered in gifts to education and religion, John D. Rockefeller asked congress to clear the way for a more systematic method of getting rid of his monetary accumulations, estimated at \$1,000,000,000.

Under the provisions of a bill introduced in the senate by Senator Jacob H. Gallinger of New Hampshire the oil king seeks a federal incorporation act for his wealth, with a view to distributing it under proper supervision for the good of mankind. The object of the foundation is to provide for a general organization to conduct philanthropic work along all lines.

Civilization to be benefited. According to the bill the Rockefeller foundation is organized for these purposes:

To promote the well-being and advance the civilization of the people of the United States and its possessions in foreign lands.

For the acquisition and dissemination of knowledge.

For the prevention of any and all of the elements of human knowledge.

Oil King Chief Incorporator.

The incorporators named in the bill are: John D. Rockefeller, John D. Rockefeller, Jr., Fred T. Gates, Starr J. Murphy, Charles O. Hoyden. These men are authorized to select associates not to exceed 25, and it is provided that there shall not be at any time fewer than five.

Headquarters of the foundation are to be in Washington.

"It is the evident intention of Mr. Rockefeller to provide a means of expending his wealth to the best advantage of the largest number of people," said Senator Gallinger.

Has Given Away \$52,000,000. It was stated by the senator that Mr. Rockefeller already had given away \$52,000,000.

The proposed foundation is to be organized along lines similar to the Carnegie Foundation for the Advancement of Teaching. As in the case of the latter institution, it will be authorized to receive and dispense gifts of money other than those obtained from the original endowment, the amount of which has not been fixed.

Recently compiled figures gave Mr. Rockefeller's benefactions at a much higher figure than that quoted by Senator Gallinger.

Scope of Foundation Unlimited. New York, Mar. 3.—The Rockefeller Foundation, according to a close associate of John D. Rockefeller, is to receive the bulk of the Rockefeller fortune under the will of the oil magnate. What the sum is, not even Mr. Rockefeller himself knows, because of the elastic value of his vast properties. The most conservative estimate of the amount which will eventually be turned over to the philanthropic work of oil magnate is \$500,000,000.

The scope of the Rockefeller foundation has been made unlimited, for the purpose of administering every sort of charity or other humanitarian work that can be called strictly educational, in which Mr. Rockefeller has ever been interested. This educational work will be carried for by the general education fund which was incorporated under such the same sort of a charter in 1905. These two funds are to be kept absolutely distinct.

4,000 FLEE FROM OHIO FLOODS. Damage Estimated at \$1,000,000.—Rivers are still rising.

Cleveland, O., Mar. 3.—At least 4,000 persons are homeless in Ohio as a result of the flood, which continues to devastate the state. Numerous plants have been forced to close down. Material damage is estimated at over \$1,000,000.

Licking and Muskingum rivers have passed their record of 1893 at Zanesville and are still rising. If there is no abatement of the water, it is stated the waterworks power plant will be forced to close.

This would mean the shutting down of all the large commercial plants there. Over 900 persons are being fed by the city authorities.

Only a few of the big steel works at Youngstown are still running, and these are expected to suspend. The tracks of the Pennsylvania railroad are several feet under water, and have been abandoned.

A fresh horror confronts the people of Maumee, where a torrent laden with ice and debris has swept over the cemetery, and it is practically certain that when the waters subside many corpses will have been uncovered.

Tammany Veterans Drop.

New York, Mar. 3.—The New York city pay rolls are lightened by \$125,000 a year by a series of removals and salary reductions announced today in the borough of Bronx. Seventy-six place holders, most of them Tammany veterans, are dropped.

Murder His Wife. Aberdeen, S. D., Mar. 3.—While Mrs. John A. Johnson sat in her home her husband shot and killed her. He was later captured by a posse.

CARRY MEAT INQUIRY ACROSS THE ATLANTIC

Representative Goes to Europe to Probe Further Into Beef Trust Methods.

New York, Mar. 3.—Alexander Simpson, a well-known New Jersey lawyer, acting as representative for Prosecutor Pierre P. Garven of Hudson county, New Jersey, sailed for London and Paris on the Mauretania.

The chief object of Mr. Simpson's trip to Europe is to ascertain how it is that beef, mutton and other food commodities which are shipped to Europe by way of Jersey City can be sold there cheaper than in this vicinity, despite the fact that duty and carrier expenses must be paid.

Prosecutor Garven announced that he would personally appeal to the governor of Illinois for the extradition of the indicted officials of the beef trust.

Mr. Garven got from Judge Swagatz of the supreme court an order compelling the directors of the various packing companies to show cause why they should not produce the books containing the lists of the directors and the minutes of their meetings in court.

SENATOR DAVIS IN HOT WATER.

Admits He Would Draw Fee from Passage of Bill.

Washington, Mar. 3.—An admission by Senator Jeff Davis of Arkansas that he would draw a good fee from the passage of a bill that he was urging before the house committee on public lands has caused the greatest excitement in congressional circles. The sensation recalls the trouble of J. Ralph Burton, former senator from Kansas.

Senator Davis went before the committee to request that his statements made a week ago be withdrawn from the record. After an hour's executive session the committee adjourned.

THEATRE

"Three Twins."

"Three Twins," Joe, M. Gates' famous producing musical comedy, will be seen at the Avenue theatre, Friday, March 4, and it comes with the most flattering endorsements ever given a musical comedy. With a five months run in Chicago and ten months in New York City to its credit, there must be truth in the report that it is the smartest and most dazzling entertainment on the stage today. It is an adaptation of the famous old comedy

"Innocent" set to the most charming music and the lyrics are bright and sparkling with humor. Chief among the song hits are "Cuddle Up a Little Closer," "The Yama Yama Man," "Good Night, Sweetheart," and "The Little Girl Up There." Mr. Gates has chosen a most capable company of seventy people and has mounted "Three Twins" most lavishly; the electrical effects are said to be wonderful, especially the electric awing and the faceograph.

TRYING TO REDUCE THE PRESIDENT'S AVOIRDUPOIS.

Dr. Charles E. Barker.

Washington, D. C.—The municipal public duties which take up President Taft's time do not, however, prevent his taking regular systematic exercise in an effort to reduce his avoirdupois and keep it near the three hundred mark. If this were a battling average instead of the fractional part of an inch, Dr. Charles E. Barker would lose a good job and a good time.

Every morning promptly at 7 o'clock the eminent physician appears at the White House and for two hours he and President Taft wrestle and box and engage in other gymnasium work. The doctor also advises the president about his diet. He took charge of the president's back in 1905 when he was secretary of war.

Considering the numerous bankruptcies and the advantages of the new bankruptcy department, Dr. Barker thinks the president is doing well to keep his weight down as low as he has.

AUTOMOBILE COSTUMES IN SHADES OF GRAY.

A silver gray shade of fine English mohair is used for this automobile coat which has sectional back, gathered at the waist line under a tailored half belt, which is overlapped by the sharply pointed lower piece which separates from the side for the double-breasted front. The straight and loose-fitting, the puff sleeves are adjusted to sectional cuffs and trimmed with large steel buttons and the turned-over collar of steel gray satin matches the ties and tucked tabs of the motorist's bonnet of fancy braid.

RETURNS HOME TO ACT AS A WITNESS

Madison's Eccentric Millionaire Protected by Man Who Prose.

Madison, Wis., March 2.—Francis A. Ogden, Madison's eccentric millionaire, who once attended his fellow townsmen by offering a free site for his Carnegie library—which offer was refused because the site was not desirable—has returned from a enforced exile, prevented from coming back to the city where are all of his personal interests because City Attorney Aylward persisted in keeping hanging over him his conviction for the charge of renting his property for immoral purposes. Ogden is a hero again, and by a strange turn of affairs, he is under the protection of the very man whose alertness in the enforcement of the law has kept him away. As a plain attorney and outside his official duties, Mr. Aylward wanted Ogden badly as a witness for his client in a land case, hence a temporary "immunity" for Ogden.

Whether the case against Ogden will now be pushed the city attorney refuses to say. Ogden still has a year in which to perfect his appeal from the decision of the supreme court, by whom he was fined \$100 and costs for six months imprisonment in the county jail. When his conviction he announced his intention to appeal to the supreme court, and immediately packed his trunk and left the city. His whereabouts up to two weeks ago were a mystery to all save the manager of his hotel. A fortnight ago he was located in Houston, Tex., where he has been conducting a land business, still making money. He is easily worth a million, a large portion of which is invested in western and southern lands.

Ogden is one of the most peculiar characters of whom this city could boast. Despite his wealth, he was uneducated, while residing here, he swept out his five-story hotel himself, cut his meals at a cheap restaurant and purchased \$5 suits of clothes. He owned two hotels, one of which he rented, ostensibly, to a negro, who was arrested for running a disorderly place. The responsibility for this was put up to Ogden and he was convicted of being the real proprietor of the resort. In two or three public statements he has accused the police of this city of being "thieves and black-mullets" and declaring he was convicted on evidence purchased by money and threats from "stool pigeons." He still maintains his "faith in the citizens of Madison," but so far has not shown any signs of offering any more gifts of land or buildings to the city.

DATED AND NUTS FOR ATHLETES.

The new crop of dates will arrive soon. Fresh dates are a wholesome and complete food. Some Arabs live on dates only for months, or even years, always strong, long-lived and entirely free from disease, if somewhat lean. A Bedouin Arab will run all day by the side of a magnificent Arab horse on dates only. Two pounds of dates (including seeds) and a quarter of a pound of walnuts or peanuts make a perfect ration. With an occasional change to satisfy hereditary appetite for "variety," an athlete or a brain worker can surpass his record on this diet.

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON

Are you a collector?

Not necessarily of stamps or birds' eggs, or any of the conven-

tional things, but just of something?

If you aren't you are missing one of the sources of happiness that

life has to offer.

Did you ever see a book collector exulting over some old folio he had

recently added to his collection? Did you ever see two autograph hunters

comparing notes on some new acquisition in the way of great people's let-

teratic signatures? If you have, you have seen a simple way to get a lot

of happiness.

The safest happiness is of course that which is

founded on the most interests, because then it is not

entirely destroyed when two or three of them flag or fall.

I know a retired newspaper man, one of the greatest

interests of whose otherwise rather simple and colorless

life is the collection of autographs which he started

when he began his newspaper work. All the notable

personages whom he met in the course of his long

career were asked to put their names in the book and the

result is a splendid collection in whose possession and

enjoying he still finds continual pleasure.

A collection like this carries itself on by its own

momentum. The only hard thing is to get it started, or

rather to get it going after it has been started, and usually

follows the enthusiasm of the start.

Of course a collection doesn't need to be intrinsically

valuable to be a source of happiness. Indeed, I

know few better things to collect than a scrapbook full of "quoted odes, and

jewels live words long

That on the stretched forefinger of all this

Sparkle forever."

Why, I wonder, do so few people have the scrapbook habit nowadays?

In our grandmothers' day I think every woman had a scrapbook. Most of

us have one of those books still tucked away in a drawer or cupboard—either

the old-fashioned one, filled with clippings from the "Ladies' Repository" and

"Every Saturday," and pages of copyings done in the sweet, old-fashioned

writing that seems almost to exude a faint fragrance of rose leaves and

Sweet William and mignonette from its quaint stints and curves.

And on the margins are the finger marks our childish hands made when

mother let us take grandmother's scrapbook of a rainy afternoon.

Well, my dear, what are the grandchildren of this scrapbookless age

going to do on rainy afternoons?

A gradual collection of bits of books is another source of much pleasure.

Start your child with two or three of Scott's or Dickens' or Shakespeare's

works and see what pleasure he will take in gradually completing the set.

And then the habit of collecting should be required for profit as well

as for amusement.

For instance, there is no housewife but would do well to systematically

collect all the good ideas and recipes and suggestions that she hears or reads.

There is no business or professional man who would not do well to build

up a file of ideas and information regarding his business or profession.

There is doubtless some kind of collection that would profit or amuse you.

Of course, I don't know what it is but you do, why don't you start it

tomorrow?

Or better still, today?

Ruth Cameron

Fads and Fashions

New York, March 3.—In accordance

with the grandmothers' prediction, the

cold weather still continues, but

women's styles are already occupied

with spring fashions and even the coming

fashions for early summer.

The shops are showing most fascinating

displays of spring and summer models

and many shoppers, eager for the

first glimpse of spring, are buying up

frocks and gowns for the approaching

warm season.

The princess style has not entirely

disappeared, but its vogue has lessened

save in lovely draped arrangements

and among the one-piece lingerie

frocks to be worn over a slip. Semi-

princess frocks shirred in several rows

all around the waistline, or partly

around it, have come into favor again,

particularly for the youthful contin-

gent, and are pretty, though they call

for a slender figure and must merely

be loosely clinging, not tightly fitting.

Some of the fashionable Paris make-

ers have evolved a compromise be-

tween the princess and the belted

style, which promises to become quite

popular later in the season. Many of

the silver white dresses are quite sim-

ple, while others are almost too

elaborate. Many of them show a com-

bination of glorie and princess panel.

The front breadth, and sometimes the

back, protruding from collar to hem,

show the princess line, while the un-

der-arm sections of bodice and skirt

are girdled together by a wide or nar-

row band. These belted styles offer

opportunity for more forms of which

will be let in the form of a few

skirt gathers at the waistline. Fash-

ions are essentially the same in out-

line. There is no great change in

fashions at any given point, which

would naturally disturb the outlines

as we know them at present.

Fashions are apparently to be op-

timate once more during the coming

spring and summer. Although it

seemed last year that no further vari-

ation in manufacture came to the

front with slight modifications of fur-

niture and some genuine nov-

elties. The popularity of chambray

effect—changeable two or three-tone

colorings—is reflected among the

shirtings and voles, silk mousseline,

chiffon cloth, crepe, tulle, etc.

The fads for basket or hopacking

weaves finds illustration in a shantung

dubbed motor matte. There is a

Carmen motor which has an effective

irregular cord. An extremely rough

though firm silk of this class is called

pougeon baroness, and all the familiar

fashions, such as (mash royal, arab,

tudor, Salome, etc., are offered in the

new lines of color.

Natural tones will as usual be con-

sidered particularly good in these

pougeon silks, and they always have a

cool and soft appearance, but some of

the more vibrant tones make up very

smartly.

The return of the normal waistline

and the rise of the Russian waist have

combined in bringing belts and girdles

back into fashion.

The latest fashion in hats is the

black velvet, softened by mousseline,

tulle or chiffon. It is the most in-

volved material across the seas.

Wherever one goes there are hats,

coats, gowns and suits of black velvet.

The rage for this material has reached

these shores, and it is moving on the

high waves of favor.

When it is seen in hats there is

much material required, for the new-

est shapes are large. Plumes are the

elegant trimming for black velvet

hats, the most accepted disposition

being that of a cluster at the side and

back, or a long, single, sweeping plume

on one side.

By little children more coats in the

soft pastel shades will be worn in the spring. For the everyday coat a black, smooth cloth with scarlet collar and cuffs is in high favor. On these coats black leather belts are used, a style that reflects the reign of the belt in the linen suits of the grown-ups. Irish lace collars and cuffs will trim many of the coats for dress occasions.

For young girls from six to fourteen pongee will be made in quite simple designs trimmed with soutache braid. The tiny gimpes of tulle or net with out collars will be used with these little models.

The sleeves of blouses are mostly plain and are often three-quarter length. The shoulders are somewhat shortened to give a severe line where the sleeves are joined to the bodice. While the fashionable sleeve is tight, it is taking on all sorts of fancy shapes, including irregular flaring, scalloped, and the like.

The newest and most popular sleeve for waists accompanying street suits is a wide moderate street sleeve, with the cuff running only half-way around the sleeve, and the seam of the remaining portion going the entire length.

PLEASANT PHILOSOPHIES.

By MARY RUSSELL.

This is a good world we live in.

Full of hope and good things, and

smiles, and pleasant people. When

we feel the wheel

Jolt over some

rough "thank-you-

ma'ms," we think

what a long, tire-

some journey it

is. But when we

come out on a

smooth piece of

roadway, and find

perfect, by the

work of some three-

teen-a read-maker

who has preceded

us, we think we

can drive at top

speed clear on to

the end.

Perhaps we can,

and then, perhaps,

we will have to

get out of our cart and proceed to

make a little good road for the fellow

who is driving up just behind us.

And how badly we feel sometimes,

when we have to work so hard at this

task, knowing that that "other fel-

low" will reap the benefit and that

we will be at the other end when the

work is finished.

We are all road-builders of some

sort. We must either plant the trees

that make the shady places or smooth

the paths or build the bridges, or re-

move the stones for those that are

riding along back of us. Sometimes

we feel that the ones in front have

done their work badly and left too

much undone or so badly done that

we do double work to make right the

rough places, but after all the work is

done.

ZODIAC ORION BOWEN
RELATES WONDERFUL
PSYCHIC PHENOMENATells of Former Janesville Resident's
Power of Becoming Invisible
Without Dying.With all due respect to Enoch Pal-
adino, Anna Eva Day, Ethel May, the
Mystery Girl, and a host of others
with spiritualistic attributes, James
Bowen, in the form of spirit of E. B.
Knight, a graduate of the Valentine
School, 1892, has the foremost psychic
figure of modern times, for since
1903 he has had the power of becoming
invisible without dying. Zodiac
Orion Bowen, psychic, of this city
ventures for the truth of the above as-
sertion, for Knight has appeared to
him, and his earthly convert has pre-
pared a mass of proofs to substantiate
his claim.Knight, without dying, has become
invisible, according to Z. O. Bowen,
in fact had reached that spiritual
plane occupied by Enoch, Eljah,
Moloch, Shari and numerous others,
now forgotten, and has imparted the
complete secret of his method of
transition to those who are willing
to accept facts and fearless enough to
follow them. Following is the account
of Bowen's meeting with Knight in
the spirit:"He was last seen in flesh in 1902,
came to me in a spirit form May 13,
at Mason City, Iowa. I thought him
just an ordinary spirit, with some new
sort of confidence game, but he gave
me the names and addresses of de-
tective from whom he had disappeared
by a peculiar method of becoming in-
visible. Even admitting this, an un-
usual proposition, I did not, however,
have sufficient evidence to warrant
me making such a public, so he pre-
sented upon me such an avalanche of
mysteries, past, present and future
evidence and acts of such great
importance to each one of the
75,000,000,000,000 of earth's great
multitude, and we have been so busy
"He is, I, his instructor, I learned,
that excepting an occasional turn
around for the mass to quell over,
everything of importance has been
guarded until the proper time
arrives, and evidence in such form as
to make humans "sit up & N. H."
Each step that E. B. took in becoming
invisible, without dying, and each
step taken by Enoch, Moses, Eljah,
Moloch, Shari, and 250,000 other
successful ones and the steps necessary
for each human now living to gain
the secret of passing to invisibility
without leaving a putrefying carcass
to be disposed of by friends can be
taught to those wishing to learn the
secret and obtain the power."In addition to the secret and meth-
ods of passing to invisibility without
dying, Bowen has imparted to Bowen a
wonderful account of the birth of the
world, the creation, and has also
shown that the Wise neither eat, kill
nor exploit their animal brethren, but
to put it in modern language, are
vegetarians, eat only fruits and nuts,
and abstain from meat, fish, and
eggs.Although the Janesville psychic has
already made a journey to Knight's
former home in Iowa, he expects to
leave again in a few days to ascer-
tain more facts in regard to the dis-
embodied spirit's former life in order
to get full and complete instructions
in the manner of his preparation for
the disappearance. He has already
gathered all the facts known to local
residents with regard to Knight's life
in this city and will be able to tell
the history of his life and the steps
to the hoped for results of this next
trip a full and complete set of rules
may be evolved.Don't pay more than 25c for A-B-C Tea,

ters. The convention is one which is
usually attended by nearly all of the
teachers of this city and Rock county,
but, owing to the fact that a large
share of them attended the Rock
county convention which was held in
Beloit recently and at the meeting
place of the Southern Wisconsin con-
vention is somewhat distant, it is
probable that but a few from here
will attend the meetings.SPECIAL TRAIN TO PLATTEVILLE,

THE CHICAGO, MILWAUKEE & ST.
PAUL RY.HIGH SCHOOL FIVE
MAY ENTER TOURNEY
FOR WHOLE STATEJanesville Basketball Team Defeated
Hillsboro School Quintet at Mad-
ison Yesterday by Close Score.By a score of 20 to 18, the Janes-
ville high school basketball team was
victorious in the game with the Hills-
boro high school quintet at Madison
yesterday afternoon and has won its
way to the basketball tournament in
the Capital City on March 10, 11 and
12, in which the best teams from the
state of Wisconsin, and from Illinois,
Indiana, Michigan, Ohio, Indiana, Min-
nesota and Dakota as well, will take
part. The contest yesterday afternoon
was for the Janesville squad the title
of champion of the southwestern dis-
trict of the state.The Janesville basketball team was
the hardest fought of any in which the
Hillsboro City squad has participated this
year. The Hillsboro five are used to
the collegiate style of playing and that
being the only kind the referee was
familiar with, it was used throughout
the game. It was something of a dif-
ficulty to the Janesville players, who
dearly to the Janesville players, who
play under A. A. U. rules, to adapt
themselves to this, but they were not
slow in becoming accustomed to it.
Another disadvantage for the locals
was several Hillsboro taller than Hem-
mings and got the ball on the jump
every time.The two fives were about evenly
matched throughout the entire game.
Hillsboro scored first, making four
points on two baskets from the field.
The Janesville team then started in
and not only managed to keep even
with their opponents, but managed to
get three more points by the end of
the first half. Hillsboro caught up
with the local team in the second
half, but could not get ahead of them.
The two played even until within five
seconds before the second half closed
and then a field basket won the game
for Janesville.The match yesterday was one in
which the Janesville players had a
chance to show their skill in the game
and they came up fully to the expecta-
tions of their friends. Their team
work and passing were exceptionally
good and they were strong in defen-
sive work.
The line-ups yesterday:
Janesville—Murphy, right forward;
Korst, left forward; Hemmings, cen-
ter; Green, right guard; Williamson,
left guard.
Hillsboro—Lloyd, right forward;
Conroy, left forward; Wheeler, cen-
ter; Stator, right guard; Hammer,
left guard.Field goals—Murphy, 3; Staley, 3;
Lloyd, 3; Williamson, 2; Hemmings, 2;
Green, 1; Wheeler, 1. Free throws—
Murphy, 3; Hemmings, 2.
Rebounds—None of Madison. Time
of halves—20 minutes.Appleton Tournament
The chances for the Janesville team
to take part in the state interschool
tournament at Appleton the last of
this month appear at present to be
very good. The southern district will
be represented by two teams and five
teams—Janesville, Watkinson, Jeff-
erson, Albany and Elkhorn—are fighting
for entrance. Elkhorn meets Wat-
kinson sometime in the near future and
the winner will be admitted to the
tournament. The team which is de-
feated will have a chance of taking
part in the tournament providing it
defeats the other three teams.Two teams have already been ad-
mitted, the Illinois team of Superior,
champion of the northern section of
the state, and the Appleton team,
which is a class by itself in the
central section.Watkinson has filed a serious charge
against the Weyauwega team and it
is probable Weyauwega will not be
permitted to enter the tournament and
no games played with Weyauwega will
be considered against any other team
applying for admission.With Appleton in the tournament
five other teams are fighting for ad-
mission—Antigo, Grand Rapids, Wan-
sica, Merrill and Neillsville—and it
is probable these will be divided in two
divisions. Antigo and Merrill will be
ordered to meet in Wausau, the winner
to come to the tournament. Grand
Rapids and Neillsville will probably be
ordered to play in Marshfield and the
winner of that game play Wausau on
Stevens Point normal floor to get
into the tournament.The Company C primary at Appleton
has been secured for the tournament
this year to better accommodate the
crowd. The teams will be permitted
to use the tub and shower baths, as
they have always done when the tourna-
ment was held in the Lawrence
gymnasium, and they will be given
every accommodation and all ex-
penses will be paid.

"THERE'S A REASON"

THIS WEDDING WILL
BE ULTRA SWAGGERGould-Drexel Affair Next Month Will
Be One of the Most Gorgeous
Ever Seen in America.

(Special to this Gazette.)

New York, March 3.—The Gould-
Drexel wedding which is to take place
next month will be one of the most
gorgeous affairs of this kind ever seen
in America. The ceremony will take
place at 4 o'clock in the afternoon in
the fashionable St. Bartholomew's
church, in Madison Avenue.
Mr. Drexel will wear his bride at
the altar with his best man, who has
not yet been chosen. The bride will
be attended by her sister, Miss Evelyn
Gould, as her maid of honor.
The bridesmaids will be Miss Margaret
Drexel, her fiancée's sister, her cousin,
Miss Hope Hamilton, daughter of Mr.
and Mrs. William A. Hamilton; Miss
Elsie Neill, daughter of Mr. and Mrs.
Benjamin Neill; Miss Marjorie Cur-
rier, daughter of Dr. and Mrs. H. H.
Currier; Miss Beatrice Clifton,
daughter of Mr. and Mrs. Arthur B.
Clifton; and Miss Dorothy Randolph,
daughter of Philip Randolph of Phila-
delphia.The bride will enter the church on
the arm of her father, George J.
Gould. She will wear a robe of white
satin trimmed with point lace. The
veil will be a family heirloom of point
lace extending to the hem of the
train. The nuptial knot will probably
be tied by the rector of St. Bartholomew's,
the Rev. Leighton Parks.
Following the ceremony at the church
the bride party and guests will pro-
ceed to the Gould family residence in
Fifth avenue, where a large reception
will be held.The wedding will be attended by
nearly all of the members of the
Gould and Drexel families. Whether
the Princess de Sagan, formerly Anna
Gould, will come over for the cere-
mony is not yet known. It is thought
that Miss Drexel will be brought to
the city by her father, the late John
Drexel, who will be here.The two young people who will be
the principals in the approaching wed-
ding are interesting, chiefly because
of the wealth and social prominence
of their families. Mr. Drexel is of
the distinguished Philadelphia family
of that name, which is connected with
the best traditions of the Quaker City.
It long has been a power in the world
of finance and its extensive banking
interests are affiliated with J. P. Mor-
gan. It also has extensive
financial connections in London and
Paris.Miss Marjorie Gould, the bride-to-be,
is the eldest daughter of Mr. and Mrs.
George J. Gould and a granddaughter
of the late Jay Gould, the "Wizard of
Wall Street." She was introduced to so-
ciety a year ago, when her parents
gave an elaborate entertainment at
the Plaza, where they were living
pending the completion of their Fifth
avenue home. Her life has been spent
principally at the Lakewood home of
the Goulds in this city, with occa-
sional sojourns in Europe. She was
educated by private tutors and is an
adept in many forms of outdoor sport.TO CURE A COLD IN ONE DAY.

COMMUNICATION

In the days of ages past, when the
years fitted by with unceasing regu-
larity and centuries counted for
naught, mankind sought refuge or shel-
ter under any shade which would shield
him from the elements or the in-
convenience of the seasons, but as soon
as his shade seemed too commonplace
for him, his nature or character, or
manner of living led him to make his
dwelling more inviting; traces of the
decorations of which still remain to
testify the fact that as man advances
in the making, his temperament, the
locality in which he lives, his mode
of living or of all indicate as to how
his place of habitation shall be built,
furnished and decorated.In the din of the days of the present
when hours and minutes are as
carefully reckoned as the wealth by
which one builds, in a time when the
machinemade product supercedes the
handmade one, in a period of marked
progress in all the arts and trades
it is not surprising that expressions
of the times are to be found in the
residences or dwellings of a people,
and that they are so well finished,
substantial, artistically arranged, fur-
nished and decorated.At a time when the forces of winter
are almost spent and nature starts
in preparation for her adornment or
self-decoration for the incoming sea-
son, when the birds are at last wel-
comed to a place made bleak and deso-
late without them, when the hopes
and aspirations of men are at high
ebb, with the coming of greater fact
the city's growth for the coming
year, in part by the means of the
birth of an active industrial and com-
mercial club whose main purpose is
to better the dormant interests of the
city, it is opportune that preparations
be made for the buildings which are
to be completed with the prevalence
of milder weather; also to bear in
mind that "now is the accepted time."

in Monroe Court.

(Special to this Gazette.)

Monroe, Wis., Feb. 3.—Harry Kim-
berly, claiming Nebraska as his home,
and a stranger here, is lodged in the
county jail, charged with attempt to
kill. The hearing was before Justice
W. T. Sauerbrey, and because of the
absence of District Attorney W. H.
McCarthy, the hearing was adjourned to
Saturday morning at 10 o'clock. The
prisoner and being able to furnish bail
of \$1,000, was returned to jail.The attempt to induce a young
school teacher, on her way home from
school near Dill, to return to the
schoolhouse and look at some maps
he was agent for, and upon her re-
fusal to accompany him, he shoved a
revolver in her face and threatened
to shoot her. A farmer coming along
at the time stopped any further trouble
as the stranger turned and walked
back to jail. The girl upon her re-
turn to her boarding house immedi-
ately informed Sheriff Hall and he
was taken into custody when he
reached jail. When searched he had
an Iver Johnson revolver, 32 calibre,
with six chambers loaded and
\$2.35 in his pocket.

FORTY YEARS AGO

Janesville Daily Gazette, March 3, 1870.—Jattings.—Within the past week or two there has been a man in this city, negotiating for the purchase of a farm, representing himself as having the necessary stamps in the shape of bonds for the trade. The title to the property was looked up, and things were about ready to consummate when it occurred to the would-be purchaser that he was "short" the purchase of eleven dollars to make up a little amount which he did not wish to break a bond to obtain. He accordingly appealed to a man who had taken an active part in the negotiations for the loan of the requisite amount. Not having it with him he borrowed \$10 and putting another dollar with it handed it to the man with the "shorts" who took it and went out, since which time he has not been seen. There is a faint suspicion that somebody was dead of debt. There was a great search of documents in town yesterday. Several of

them were in Elkhorn as witnesses in the Duval trial. A span of horses attached to a double wagon loaded with wheat ran along the main crossing Milwaukee street bridge, and was finally stopped on Court street bridge. The sowing of grain was decidedly pronounced. Some emigrant wagons bound for Kansas passed through this city today. The monthly social gathering of the Literary Society in the parlors of All Saints church, last evening, was exceedingly pleasant both to the gastronomic and intellectual man. A supper of all the delicacies that could be desired was served, after which several verses of the Sabbath School, recited carefully prepared poems. Mrs. Orrin Garney then read a poem on "What Constitutes An American Citizen," the sentiments of which were exceedingly independent and to the point. A paper was then read, after which the company dispersed.

News From the Suburbs

COUNTY LINE. County Line, March 3.—John Johnson of Stoughton spent Sunday with friends here. Jerry Murphy transacted business in Janesville on Monday. KIDNEYS ACT FINE AND BACKACHE GOES AFTER TAKING A FEW DOSES

Out-of-order Kidneys are regulated and the most severe bladder misery vanishes. Out-of-order kidneys act fine and backache or bladder misery is relieved after a few doses of Pope's Diuretic. Pains in the back, sides or loins, rheumatic twinges, debilitating headache, nervousness, dizziness, sleeplessness, indigestion or swollen eyelids, worn-out feeling and many other symptoms of clogged, inactive kidneys simply vanish. Frequent, painful and uncontrollable urination due to a weak or irritable bladder is promptly overcome. The moment you suspect any kidney, bladder or urinary disorder, or feel rheumatism coming, begin taking this harmless remedy, with the knowledge that there is no other medicine at any

price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pope's Diuretic, which any druggist can supply. This medicine acts directly to the out-of-order kidneys, bladder and urinary system, cleansing, healing and strengthening them, and completing the cure before you realize it. A few days' treatment with Pope's Diuretic means clean, active, healthy kidneys, bladder and urinary organs—and you feel fine. Your physician, pharmacist, banker or any mercantile agency will tell you that Pope's Diuretic, of Chicago, is a large and responsible medicine concern, thoroughly worthy of your confidence. Accept only Pope's Diuretic—fifty-cent treatment—any drug store—anywhere in the world.

Those from here that attended the Farmers' Institute at Orlinville last week were Mr. and Mrs. S. Raymond, Mr. and Mrs. Wm. Shuman and daughter, and Joseph and George Hemmings. At the home of Ehringer & Deitmer Friday evening seventy relatives and friends gave Paul M. Ehringer a farewell party in the form of a surprise. Music, dancing and cards were the amusements and at midnight an oyster supper was served. As a remembrance of the evening the ladies presented him with a rocking chair. Mr. and Mrs. Allen Long and son, Rollin, who have been visiting in Milwaukee, returned home last Saturday. John Kane of Rockford spent Sunday with Mr. and Mrs. E. A. Kane. Miss Anna Luciford spent Sunday night at Afton. Mrs. E. G. Brown and son, Maurice, Mrs. Wm. Ehringer and Miss Jennie Ellis went to Chicago last Monday. George Tripp of Montana was a caller at H. C. Deitmer's, Monday. Henry Phillips of Colorado and Gen. Connel of Portland visited at Mr. Kane's home Monday. Will Schuffner of Oerlin, N. D., visited his mother Tuesday. Paul M. Ehringer loaded a car with his farm machinery, household goods and horses Tuesday and moved to Augusta, Wis., where he and E. G. Brown have purchased a 455-acre farm. He will be missed by all. Mr. and Mrs. Ray Silverthorn and son of Footville have moved on the better estate. Mrs. Anna Damerow and daughter who have been visiting at Schenck's, returned home Tuesday. Olaf and Benny Jensen have gone to Brendstad to attend the wedding of their cousin. Quite a number from here have gone to the auction at Barney Mills in the town of Rock.

FREIGHTS COLLIDE, FIVE HURT. Two Trainmen Will Probably Die—Engine Smashed to Junk. Benton, Ill., Mar. 3.—Two extra freight trains met in the Benton yards of the Chicago & Eastern Illinois railroad early today, injuring five men. The injured: A. Dorris, West Frankfort, switchman; Fred Bagley, Tamm, conductor; Guy Ventress, West Frankfort, engineer; Ed. Newell, Cypress, fireman; Y. Thompson. Ventress and Bagley probably will die. All of the injured were taken to the Mount Vernon hospital. One engine is so badly smashed that it is fit only for junk.

MANY FAMILIES LEAVE HOMES. Waters in Wyoming Valley, Pa., Are Rapidly Rising. Wilkesbarre, Pa., Mar. 3.—Some 1,200 families have been forced to leave their homes in the Wyoming valley by the rapidly rising waters of the Susquehanna which are 25 feet above low water mark and higher than in many years. The water is still rising.

Senator Alida Scores a Point. Albany, N. Y., Mar. 3.—Senator Alida had his inning at the senate great investigation. Harvey J. Danlos of Norwich, who was clerk of the ways and means committee in 1901, when Alida was its chairman, declared that Conger did not enter the room on the day Alida is alleged to have received the \$10,000 bribe in this committee's quarters.

Oklahoma Bill Aimed at Negro. Guthrie, Okla., Mar. 3.—The Oklahoma house of representatives has passed the Taylor election law, which prescribes the qualifications of those who may vote on constitutional amendments. The law, it is understood, seeks to reduce the negro vote.

Their Own Race the Enemy. It has been found in Nova Scotia that the lobster's chief enemy is not the dogfish but the lobster.

FLOOD RESULTS IN EPIDEMIC. Herkimer Residents Flee High Waters in Fear and Distress. Herkimer, N. Y., Mar. 3.—Following a night of the most intense suffering the flood-stricken residents of Herkimer in fear and distress and with actual starvation starting them in the face are deserting the village by thousands. Of 2,000 residents of the section of the stricken village known as Brooklyn there are only seven families remaining. The others have abandoned their homes and sought places of safety in near-by villages. There is absolutely no water in the village for drinking purposes and the suffering is increasing hourly, while an epidemic of disease has already begun to manifest itself. Thirty-eight cases of pneumonia have developed in the flooded community within the past 24 hours and physicians say an outbreak of enteric fever is bound to come within a week.

RAINY HITS WAR DEPARTMENT. Says Bursting of 14-inch Gun Made By Pauper Labor Was Hushed. Washington, Mar. 3.—One of the great 14-inch guns burst during the grand trials at Sandy Hook, and the matter was hushed up, according to Representative Rainey of Illinois. He made a sensational attack upon the Bethlehem Steel Company and the government officials that have been favoring it with orders. The gun which burst, he said, was made by the most poorly paid skilled labor in the country.

Physical Religion. To keep up a nice balance of work and wear, and to come out a little ahead each day, is a good religion. No man has any right to wear himself out. —Dr. Kelllogg.

Do You Get Up With a Lame Back? Kidney Trouble Makes You Miserable. Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because of its remarkable health restoring properties. Swamp-Root fulfills almost every wish in overcoming rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or had effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer, N. Y. The regular fifty-cent bottle and one-dollar size bottles are sold by all druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Doughton, N. Y., on every bottle.

SWAMP ROOT is for sale at SMITH'S PHARMACY as well as all other Patent Medicines.

COL. ROOSEVELT IS ROYALLY ENTERTAINED. Former President Plants Tree on Reaching Mongolia to Commemorate His Visit. Mongolia, Sudan, Mar. 3.—Col. Roosevelt in encountering a forest of the strenuous hospitality which will characterize his progress through Sudan and Europe. On his arrival here he performed the ceremony of planting a tree to commemorate his visit. His reception here was most elaborate, as Colonel Owen, governor of the province, has been for years an admirer of Colonel Roosevelt's words and deeds. A huge American flag flew from a special flagstaff. It fluttered between the red-crossed emblem of the Sudan and the union jack of Great Britain. The Sudanese troops formed a guard of honor for Colonel Roosevelt and he was particularly struck by the general bearing of these soldiers. After dinner at the governor's residence, the guest of honor witnessed a native dance arranged for his entertainment. A thousand or more native warriors in wonderful ostrich head-dresses and with their bodies decorated here and uncovered there after the African native mode and carrying terrifying broad head spears. Surrounding the dancers were hundreds of carriers and in a knot hundreds of bearers of tom-toms, who uttered their barbaric cries and made a nerve-wrecking din with their musical instruments of gongs and hids. The scene was illuminated with hundreds of torches. The natives exhausted their repertoire of dances for the visitor and it was the latest display Colonel Roosevelt has seen in Africa. Later the party left for Lake No.

MISER'S FORTUNE IS FOUND. Thousands of Dollars Are Discovered in Old Books, Etc. Burlington, N. J., Mar. 3.—Tucked away in old corners, in cupboards and between the leaves of old books, currency and coins amounting to many thousands of dollars have been discovered in the home of Miss Elizabeth Inyes, a supposedly poor spinster, who died here Monday. The amount of money secured has not been ascertained, but is estimated by some at \$100,000. Miss Inyes was 86 years old and had devoted herself a servant for years, enjoying only the bare necessities of life. Brazil Has New President. Rio de Janeiro, Mar. 3.—Marshal Hermes Fonseca, the former minister of war, has been elected president of Brazil over the opposition candidate, Dr. Ruy Barbosa, ex-president of the senate. Vote \$30,000,000 for Irrigation. Washington, Mar. 3.—The senate passed the bill authorizing \$30,000,000 worth of certificates of indebtedness to complete existing irrigation projects.
